

Plastarch Material (PSM) Cutlery

Evaluating sustainable cutlery options? Look to EarthChoice® Plastarch material (PSM) utensils. This line of heavyweight cutlery is strong and sustainable.

Sustainable choice

Made from a blend of polypropylene and a minimum of 29% renewable, plant-based starch, this line contains less fossil fuel-based plastic than traditional PP cutlery.

Premium performance

EarthChoice PSM cutlery will give you the performance your operation needs. Heavyweight and strong, it withstands temperatures up to 200°F.

Dishwasher safe

This cutlery line has been tested by an accredited laboratory and demonstrates that it is capable of being washed at least 100 times in a residential dishwasher, with no changes to its physical properties.

Safe & sanitary options

Offered in individual pieces, which are ideal for refilling dine-in dispensers or wrapped kits that are convenient and hygienic for delivery & takeaway.

Plastarch Material (PSM)

Product specifications

Virtual Packaging Assistant

The Virtual Packaging Assistant (VPA) app can be used for all of your Foodservice Packaging Solutions! It is available for download on all Apple, Android and Windows devices.

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
