# Formed Fiber Blend "The Edge" Egg Carton

Introducing Novolex's new premium formed fiber blend egg packaging offering, the Edge Carton. This carton has a smooth print panel to compete with both labeled flat top and hybrid cartons and offers a sustainable solution that is both recyclable\* and compostable\*\*.

## Egg Protection

Made from a formed fiber blend, this carton compares to foam's strength, keeping customers' eggs safe from farm to fridge.

## Premium Printing

Along with its creamy, "natural" color, the print area on the carton is very smooth, resulting in vibrant graphics that leap off the carton. The print quality is superior to molded fiber, so your brand is sure to stand out.

## Sustainable

Our cartons are sturdy and perfect for processing on high-speed egg grading lines. Additionally, they are recyclable\*, compostable\*\* and Forest Stewardship Council® (FSC) Certified.

\*Check locally, may not be recyclable in your area  
\*\*Commercially compostable only. Facilities may not exist in your area. Not suitable for home composting.
