

Mineral Filled Polypropylene **Vented Hinged Lid Containers**

Highly functional low cost containers great for curbside pickup or delivery.

New 8x8" and 9x9" sizes now available

Reduced environmental impact

EarthChoice® mineral filled polypropylene (MFPP) containers are made with 50% less plastic than traditional polypropylene (PP) containers, reducing fossil fuel based material usage.

Premium performance

These containers are strong, stackable, and moisture resistant so they can stand up to hearty and saucy foods.

Keep it crispy

The SmartVent™ system offered on most sizes allows steam to release, keeping food hot and crispy even on the go.

Great for to-go

This line helps to maintain temperature and quality to deliver a “same as in-house” dining experience. The Zip Seal™ closure and perimeter seal prevents messy leaks and spills.

Consumer convenience

Consumers will appreciate that these containers are microwaveable and are safe for top rack use in residential dishwashers.

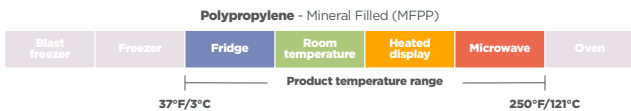

Mineral Filled Polypropylene Vented Hinged Lid Containers

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
