

Fiber Blend **Hinged Lid Containers**

Searching for the perfect renewable containers for your operation? Look to the EarthChoice® family of fiber blend, hinged lid containers.

Renewable materials

Made of a blend of bagasse (sugar cane), bamboo or wood fibers. Reduce your environmental impact with these containers.

Commercially compostable

These containers meet the ASTM D6868 compostability standard and are compostable in commercial facilities, which may not exist in all areas. Not suitable for home composting.

Domestically manufactured options

We offer fiber blend products that are made in the USA from globally sourced materials as well as imported items. See the table for details.

Secure and dependable

The material resists grease, moisture soak-through while the design helps to prevent messy leaks. Most sizes have secure double tab closures for added security when transporting.

Virtual Packaging Assistant

The Virtual Packaging Assistant (VPA) app can be used for all of your Foodservice Packaging Solutions! It is available for download on all Apple, Android and Windows devices.

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
