

NEW OFFERING!

## Clear and Black RPET Meat Trays

Our growing product line of trays now includes two levels of performance to accommodate all needs.

### Choose Your Design

EarthChoice® RPET trays are engineered to be used on in-store wrappers. We offer built-in purge wells to assist with absorption or flat-bottom trays for use with a pad.

### Merchandising and Sustainability

Trays are designed to give protein and produce an upscale look with sustainability in mind. Trays are made with a minimum of 25% post-consumer recycled (PCR) materials. The clear trays are recyclable\*.

### Two Weights Available

Heavy-weight trays offer sturdiness when support is needed. Value trays offer a lighter alternative when a heavy grade is not required.

### Save on Shipping

Availability at multiple regional mixing centers means trays can ship along with your other Pactiv Evergreen products, making us your one-stop-shop. Talk to your Pactiv Evergreen sales representative for more information.

# Clear & Black RPET Meat Trays

\*Value trays are also available in black.

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
