

REYNOLON®

Shrink Film

Reynolon® Shrink Films are the right choice for textile packaging.

Variety available

From soft to rigid, our wide spectrum of film is available in multiple gauges, orientation patterns, and print grades.

Reduces waste

With our preferential shrink film, you can reduce waste by using less overwrap to accomplish the job.

Superior finish

Our high gloss and sparkling clarity will add point-of sale appeal by allowing customers to see your product and not the overwrap.

Reliability

With films tough enough to withstand the rigors of warehouse handling, textile manufacturers can be certain that their product will remain clean and the wrap intact.

Recommended Films

| Series | Description | Lamination, Heavy-Duty Overwrap | Sleeve Wrapping, Low-Profile Overwrap | Banding | General Purpose | Heavy-Metal Free (Yes/No) | Percent Bio-Based | Percent Non-Petroleum |
|--------|--|---------------------------------|---------------------------------------|---------|-----------------|---------------------------|-------------------|-----------------------|
| 7000 | Very soft, outstanding sparkle and gloss | 7010 | 7052 | | 7044 | No | % | % |
| 9000 | Very soft, outstanding sparkle and gloss | | | 9161 | | No | % | % |

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.

For shrink films that outperform all others ...
