

RPET (Recycled PET)

# Tamper Evident & Resistant Hinged Lid Containers

# The sustainable way to keep your customers' food safe.

## Tamper evident and leak resistant seal

This patented design improves safety by minimizing risk of food tampering and has no loose pieces to throw away. Be confident your container is sealed when you hear the “click” while closing it. There are no shrink bands or wrap-around labels required. The leak-resistant seal locks in product freshness and reduces messy spills. The containers are resealable for convenience and flexibility.

## Sustainable

The recyclable\* containers are made with a minimum of 25% post-consumer recycled materials (PCR), which reduces environmental impact by using materials previously destined for landfills. They also eliminate the need for shrink bands, also bound for landfills.

## Great for merchandising

Tamper evident containers allow for secure stacking for easy handling, display and transport. They are automation-capable thereby lowering operating costs. The large window panel is a prime location for brand identity and better merchandising.

### What temperature range is recommended?

Polyethylene Terephthalate (PET & RPET)

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
