

Compostable **Bio-Plastic Straws**

Our durable, high-quality straws look and perform like traditional straws, but they are anything but traditional!

Sustainable performance

Made from a proprietary blend of sustainable, annually-renewable resources, these straws won't get soggy like paper straws.

Dishwasher safe

Our straws are capable of being washed at least 100 times in a residential dishwasher, with no changes to their physical properties.

Multiple applications

With their high-heat tolerance, these straws can be used for hot and cold beverages.

Commercially compostable

These straws are BPI certified to be commercially compostable only.* Composting helps divert food scraps from landfills.

Show you care

The EarthChoice printed wrappers are sanitary and let your customers know they can be commercially composted.

*EarthChoice bio-plastic straws are BPI certified to be commercially compostable. Facilities may not exist in your area. Not suitable for home composting.

Compostable Bio-Plastic Straws

Virtual Packaging Assistant

The Virtual Packaging Assistant (VPA) app can be used for all of your Foodservice Packaging Solutions! It is available for download on all Apple, Android and Windows devices.

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
