Soup Containers and Lids

Durable and versatile

Whether it's a ladle of chili straight from the pot, potato salad from the deli, or ice cream scooped from the freezer, these high-quality containers are up to the challenge of both hot and cold foods.

Moisture resistant

Made from polyethylene coated paperboard, these containers resist grease or liquid from soaking through.

Efficient options for dine-in or to-go

Select from a convenient combo pack that is easy on inventory and back of house storage, or bulk lids and bases to reduce waste when used for onsite dining. If customers do opt for carryout the leak-resistant lid safeguards against messy leaks or spills.
