

## **Sustainable Product Guide**

EarthChoice® products allow you to choose packaging options that best address your specific sustainability needs with every product providing at least one of these four benefits: Reduce, Reuse, Recycle, or Renew.

All of our Greenware® products are commercially compostable\* and made of renewable materials. Compostable products help facilitate the diversion of food scraps from the landfill.

Recycleware® products are made with a minimum of 20-50% post-consumer recycled PET (RPET), for a reduced environmental impact. Products made from RPET use fewer virgin raw materials and help keep plastic out of landfills - supporting a circular economy.

<sup>\*</sup> Commercially compostable only. Facilities may not exist in your area. Not suitable for home composting.

	evergreen™			Made with less virgin resin	Top rack resident dishwater safe	Made with recycled content	Recyclable*	Made of renewab materials	Commercially compostable**	BPI certified compostable
