Compostable Collection

An array of packaging designed to deliver the right sustainable solution for you.

![pactiv evergreen™]

Inside this collection

Terms & certifications

Renewable Resources:

Products made from renewable resources such as bagasse (sugar cane), bamboo, PLA, and wood fibers.

Commercially Compostable:

Products that have been tested to meet ASTM, formerly American Society for Testing and Materials, compostability standards.

ASTM D6868

Our fiber blend and PLA-coated paper products meet the ASTM D6868 compostability standard.

ASTM D6400

Our bio-based plastics meet the ASTM D6400 compostability standard.

These products are compostable in commercial facilities only, which may not exist in all areas, and are not suitable for home composting.

Third Party Certifications:

BPI Certified Compostable

Product that has been certified by the Biodegradable Products Institute as "compostable" according to U.S. compostability standards and BPI's additional requirements.

PFAS-Free Fiber Blend Solutions
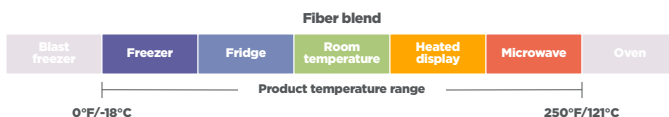

PFAS-free performance

Made with a proprietary formula, new EarthChoice® PFAS-free fiber blend containers and tableware feature excellent grease performance that holds up to wet, heavy foods.

Commercially compostable

BPI certified to be commercially compostable only. Facilities may not exist in your area. Not suitable for home composting. Compostable products facilitate the diversion of food scraps from the landfill.

Solutions for customers

Our PFAS-free fiber blend products serve as another example of our commitment to supply customers with the products and solutions they need.

Fiber Blend

An assortment of renewable packaging you can depend on.
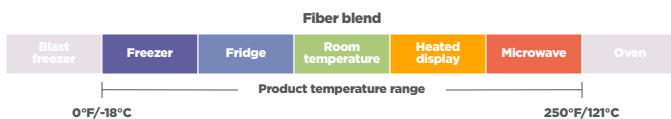

Renewable materials

Made of a blend of bagasse (sugar cane), bamboo or wood fibers, which are renewable resources.

Commercially compostable

These products meet ASTM D6868 compostability standard and are compostable in commercial facilities, which may not exist in all areas. Not suitable for home composting.

Secure and dependable

This material resists grease, moisture soak-through while the design helps to prevent messy leaks. When it comes to our fiber blend containers, most have secured double tab closers for added security when transporting.

PLA

A collection of compostable, crystal-clear options to showcase your to-go items.

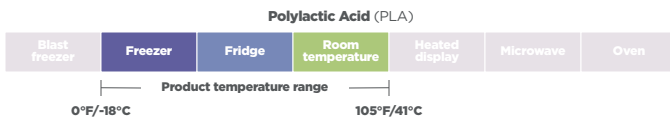

Made from plants

Made from polylactic acid (PLA), a resin derived from annually-renewable plants.

Commercially compostable

BPI certified to be commercially compostable only. Facilities may not exist in your area. Not suitable for home composting. Compostable products facilitate the diversion of food scraps from the landfill.

Perfect for cold menu items

Best used for cold applications like icy cold beverages, sandwiches, and salads with a heat tolerance up to 105°F.

Paperboard

Sustainable packaging created with a dual purpose - perfect for hot and cold applications.

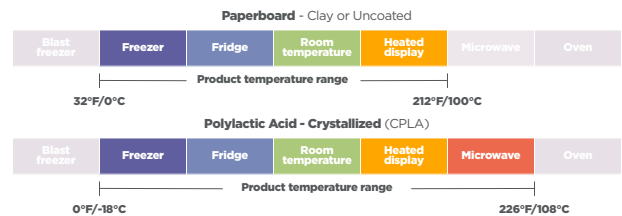

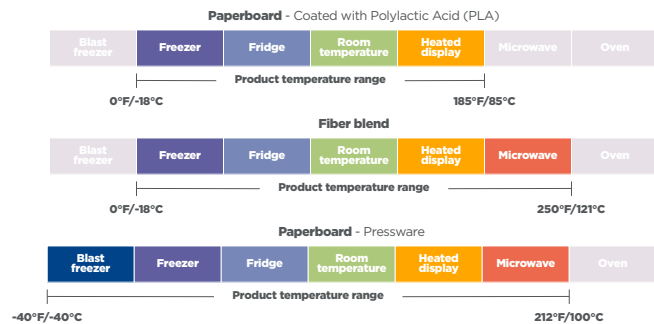

Commercially compostable

Our EarthChoice® PLA-coated paperboard drink cups, and PLA lid are BPI certified compostable*. Additionally, our EarthChoice® Pressware Paperboard and Tamper-Evident Fry Cartons meet the ASTM D6868 compostability standard*.

Wide temperature tolerance

Packaging that works for both hot and cold applications such as soups, soda, hot cocoa, coffee, fries and more.

Great on-the-go options

From soup cups, hot cups, tableware, or tamper-evident fry cartons, we have reliable options for you to choose from.

Bio-Plastic

Sustainable high-quality straws that look and perform like traditional straws, but they are anything but traditional.

Commercially compostable

These straws are BPI-certified to be commercially compostable in commercial facilities only, which may not exist in all areas. Not suitable for home composting.

Sustainable performance

Made from a proprietary blend of sustainable, annually-renewable resources, these straws won't get soggy like paper straws.

Multiple applications

With their high-heat tolerance, these straws can be used for hot and cold beverages.

Show you care

The EarthChoice® printed wrappers are sanitary and let your customers know they can be commercially composted.

Dishwasher safe

These straws are capable of being washed at least 100 times in a residential dishwasher, with no changes to their physical properties.
