Tamper Evident Containers

This patented design improves food safety by minimizing the risk of tampering.

Tamper evident

Be confident your container is sealed when you hear the “click” while closing it. There are no shrink bands or wrap-around labels required.

Leak resistant

The leak-resistant seal locks in product freshness and reduces messy spills. The containers are resealable for convenience and flexibility.

Superior handling

Tamper evident containers allow for secure stacking for easy handling, display and transport.

Great for merchandising

The large window panel is a prime location for brand identity and better merchandising.

Sustainable

Containers are recyclable.

What temperature range is recommended?

Polyethylene Terephthalate (PET & RPET)

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
