

Fiber Blend Round School Lunch Trays

Our EarthChoice® round school lunch trays offer a sustainable mealtime solution in an original and operationally efficient design.

Renewable materials

These EarthChoice® fiber blend school lunch trays are made from a PFAS-free blend of pulp fibers which are sustainable and renewable resources.

Commercially compostable and recyclable

Meets ASTM D6868 compostability* standard or if composting is not available these trays are also recyclable in the communities that accept molded fiber products. Check locally.

Sturdy and soak-resistant

Place your food directly on these grease and water-resistant trays. These durable trays can hold up to heavy and saucy foods like spaghetti, meatballs, and other cafeteria favorites.

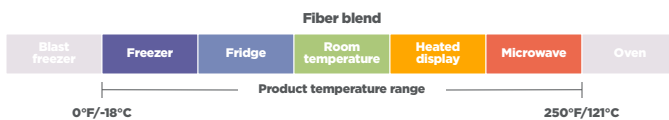

Innovative design

The added tabs make for easy tray separation, even while wearing gloves! The 3-compartment tray has a larger entrée compartment for high school and adult size portions.

What temperature range is recommended?

For more information, contact your Pactiv Evergreen sales representative.

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.

*Compostable in commercial facilities only, which may not exist in all areas. Not suitable for home composting.
