

# Global Environment, Health, & Safety Statement

Pactiv Evergreen is focused on being recognized as a leader in Environmental, Health, and Safety (EHS). This commitment is aligned with our values of: Celebrate People, Do What's Right, Win Together, Demand Excellence, and Own It. Pactiv Evergreen is committed to the protection and well-being of its employees, contractors, visitors, and the environment and communities in which we operate.

Pactiv Evergreen will ensure a focus on improved performance by setting goals, measuring progress, and communicating results to its employees and the public. As such, Pactiv Evergreen will:

## Zero Harm

Provide a zero-harm workplace for all individuals focused on a commitment to injury and illness prevention and hazard elimination. Foster open participation and engagement in EHS and personal well-being at all levels of the organization.

## Customers

Align with our customers to support our mutual environmental, health, safety, and sustainability objectives.

## Suppliers

Collaborate with our suppliers, contractors, and business partners to achieve mutually beneficial EHS performance.

## Communities

Participate and support community outreach programs, both locally and globally, focused on EHS and sustainability initiatives.

## Environment

Manage our environmental risks to minimize the impact to the communities where we operate. Reduce the environmental footprint of our operations, services, and supply chain through an increased focus on renewable resources. Reduce our greenhouse gas emissions, water & energy usage, and waste generation to support global initiatives on climate change.

## Regulations

We strive to meet all applicable EHS regulations and internal requirements to which we subscribe.

## Shareholders

Drive continuous improvement in environmental, health, and safety by establishing targets, measuring performance, and communicating our results.

All Pactiv Evergreen employees are accountable for compliance with this policy and ensuring that Pactiv Evergreen meets its EHS commitments.
